

19th Annual LECC Crime in Arizona Conference

May 26-28, 2004

**Prescott Resort
Prescott, Arizona**

Presented by the
Law Enforcement Coordinating Committee

❖ WHO SHOULD ATTEND ❖

Tribal and Non-Tribal law enforcement, federal, state and local level. Prosecution, probation, corrections, and court personnel.

This course has been approved as to form for AZ POST continuing training credit.

❖ TOPIC ❖

The Law Enforcement Coordinating Committee's Executive Committee would like to invite you and relevant members of your agency to attend the 19th Annual Crime in Arizona Conference. This conference will provide the attendees with presentations on some of the most current issues related to child exploitation, hate crimes and immigration crimes, specific topics within this subject being collateral crimes, asset forfeiture/funds and human smuggling and its related violence.

Each subject being presented will provide attendees with information that is current, with potential resources to assist in implementation and information on relative potential funding opportunities. Please review a snap shot of the content of the following topics:

Hate Crimes – The forces that propel hate crimes are more complicated than many other one-dimensional, conventional crimes. To best address community needs, first responders must incorporate a broader and more nuanced understanding of bias crimes into their handling of individual cases. Join us as we explore exactly what is and, equally important, what is not a hate crime; who commits hate crimes, and why; the impact of hate crimes within the targeted group and the larger community; appropriate hate crime responses and strategies for effective bias crime investigations; and the distinctions between federal and state hate crimes laws.

Child Exploitation – This presentation provides a current look at "sex offender" typology as it relates to the exploitation of children via the Internet and pornography. Insight on the astonishing information regarding recently collected information of a study illustrating how dangerous porn collectors really are, one example being in excess of 70% of them having revealed having engaged in numerous hands-on offenses with victims. Information on cutting edge actions being taken in combating this egregious problem in addition to resources such as the invaluable resource of the federal sex offender treatment program (SOTP) will be provided.

Immigration Crimes – Presentation will include an overview of the impact illegal immigration is having on local law enforcement not only in the border counties, but throughout all of Arizona. It will highlight the need for all incident related information sharing and give examples of intelligence development through geographical information fusion. It will also provide an overview of the information sharing process between federal, state, tribal and local law enforcement being utilized in support of the Arizona Border Control Initiative.

Wednesday, May 26th -- Agency meetings including ICIN, APAAC, Arizona Sheriff's Association, AACOP Board Meeting, ACASA, Federal SACs and the LECC Executive Meeting.

Thursday, May 27th – All day training followed by the LECC Awards Banquet at 6:00pm.

Friday, May 28th -- This year there will be no training by LECC on Friday. The AACOP general meeting will be from 9:00 a.m. - 11:00 a.m.
